- Parent plan enrollment (voluntary plan) has a lock-in period of 2 years where an employee cannot opt-in or opt-out from the plan unless in case of a life event. The lock-in period starts from 26th Jul 2025 and will end on 25th Jul 2027.
- “Auto-enrollment” would be done for family members (spouse/children) and for Voluntary plans if not visited and confirmed during the annual enrolment window or life event.
- The premium for voluntary plans may change year or year and employees who have chosen these plans will be required to pay the defined premium through payroll deduction.
- Employees going to the Network Hospital should always opt for a Cashless claim and avoid reimbursement because, in reimbursement claims, the pre-negotiated rates will not be made applicable by the hospital while the Insurer will only make payment to the limit of “Pre-negotiated” rates and the rest of the cost would need to be borne by the employees.
- In case of any issues with delay in cashless approval/ settled amount/ hospital tariffs, please call the insurance focal immediately to resolve your queries before getting discharged from the hospital.

**Room
Rent**

Room Rent means the amount charged by a Hospital for the occupancy of a bed per day (twenty-four hours) basis and shall include associated medical expenses. Sub-limit on room rent would mean that the insurer defines the maximum amount it will pay towards the room rent. Mostly, this limit is defined as a percentage of sum insured.

As an example, a 1.5% (of Sum Insured) per day cap for a normal room in a policy with a sum insured of Rs 3 lakh means that the insurer will only pay Rs 4,500 per day towards room rent. In other words, you would be eligible to stay in a room with a tariff of up to Rs 4,500 per day. If you choose a room with a higher tariff, the insurer will not pay, and you will pay the difference. But that's not all. You don't only pay the difference in the room rent alone, but the associated difference in cost of doctors' fees, nursing fees, and surgery costs. This is so because the cost of medical procedures is linked to the room that you choose. So, for the same line of treatment, a person with a twin-sharing room will pay less compared to a person with a single room.

Your policy eligibility is: Single A/C room for normal hospitalization and no limit in case of hospitalization in ICU.
